SPECIAL GRAND ROUNDS PRESENTATION:

Giving the green light to medicinal marijuana: An overview of New Jersey's program and evidence

We invite you
to meet the expert

Shereef Elnahal, M.D., MBA
Commissioner, New Jersey
Department of Health

This program is designed to provide physicians, other health care professionals, residents and students with an overview of the Department of Health's Medicinal Marijuana Program and a review of research regarding the use of medicinal marijuana to treat certain medical conditions. The presentation will highlight the various conditions which are appropriate for treatment with medicinal marijuana as well as various forms of medicinal marijuana available at New Jersey's Alternative Treatment Centers.

Objectives:

At the conclusion of this learning activity, the participants should be able to:

- List the requirements of the medicinal marijuana program, and the changes made to the program pursuant to the Executive Order #6 Report issued by the Department of Health.
- Cite the most current research regarding the use of medicinal marijuana to treat certain conditions.
- Identify which patients and conditions are appropriate for treatment with medicinal marijuana.
- Distinguish between the various forms and types of medicinal marijuana available at New Jersey's alternative treatment centers, and their appropriateness for treating the approved conditions and symptoms.
- Explain dosing and application options to patients who have been recommended for treatment with medicinal marijuana.
