Eighth Annual OB/GYN Symposium:

Contemporary Issues in Obstetrics

Friday, October 12, 2018 ■ 7 a.m. – 1:30 p.m.

Jersey Shore University Medical Center
Lance Auditorium, 1945 State Route 33, Neptune, NJ
Valet parking is available

CME

Program Description:

This program will focus on challenging and controversial topics related to substance abuse, breast disease, short cervix, and genetic screening during pregnancy as well as screening for cancer. These issues warrant evidence based approach to care in order to determine management strategies, proper testing and appropriate referral procedures to optimize patient outcomes.

TARGET AUDIENCE: OB/GYN and Oncology care providers to include: physicians, nurses, midwives, residents, medical students, and genetic counselors.

Objectives:

At the conclusion of this activity, the participant should be able to:

1. Manage pregnancy complicated by opioid use;
2. Identify and manage breast disease during and after pregnancy;
3. Evaluate patients with a short cervix;
4. Describe and explain perinatal genetic counseling tools and techniques;
5. Identify patients at increased risks for cancer.

Registration:

There is no registration fee for this program. The program and luncheon are open to all, however, to properly plan, advanced registration is STRONGLY encouraged. Visit MeridianHealth.com/OBGYN to register. For questions, please call 732-776-3790.

Meridian Staff can register online on the Physician Extranet at MeridianHealthDoctor.com, under CME Calendar; go to October 12, 2018.
